

THE **JONAS** PROJECT

WOVEN - SAN DIEGO

CONTINUING COMMUNITY

WOMEN VETERAN ENTREPRENEURS NETWORK

Microbusiness and self-employment offer veterans, and especially women veterans and veterans with disabilities, increased opportunities to maximize their strengths and skills, to achieve their financial and career goals, and to customize their employment to accommodate their needs. If you are in the idea stage or beginning stage of your business, join our ongoing network of women veteran entrepreneurs through community-based programs.

Our 3 month program provides the necessary resources to make your business idea a reality with the support of fellow veterans and entrepreneurs.

Month 1: Onsite classes to draft of your business plan and have access to available resources

Months 2-3: Individual counseling with experienced business advisors who are business owners and have 'been there, done that' and know what you're facing.
